HARBOR POLICE.

The following statistics show the work done by the Harbor Police during the past year. The steamer "Protector" has been constantly employed doing its own and the work of other departments, when for any reason the boats belonging to them have not been in use. The work of the Harbor Police increases from year to year as the city increases in size, and in the amount of business done within its limits. The development of the various railroad properties along the waterfront, involving a corresponding development of the shipping interest, and the constantly growing tide of summer travel to and from the various seashore resorts, require careful supervision on the part of the police to insure public safety and good order. The Harbor Police has performed its various duties most satisfactorily and with hardly a complaint against it for any cause whatever.

The special duties performed by the Harbor Police during the year, as reported by Captain Goold, are as follows:—

Value of property, consisting of float-stages, boats, rigging, etc., recovered	\$3,386 00
Number of vessels boarded, from foreign parts,	1,148

INSPECTORS.

The work of this department will be found to compare favorably with that done in previous years. The Board renews its recommendation of a change in the ordinance, by which, instead of the present organization, the force of the office shall consist of one Chief Inspector and ten Inspectors.

The report of Captain Ham, Chief Inspector, for the year, is as follows:—

No. of persons arrested, principally for felonies,	414
Fugitives from justice from other States arrested and delivered to officers from those States	9
Criminals from other States arrested on Governor's requisition	7
No. of cases investigated	1,092
No. of days spent in court by Officers	911
Amount of fees earned by Officers	\$902 80
Amount of stolen property recovered	85,630 06
Amount of fines imposed by the Court	1,314 00
No. of years of imprisonment imposed by Court	201 $\frac{1}{2}$

REGULATION OF STREET-CARS.

Sergeant Boyer and his squad have, during the year, performed their duties in a highly satisfactory manner. The number of cars run in the streets have increased materially, and the duties of the officers have increased correspondingly.

STREET-RAILWAY LICENSES.

Number of street-railway licenses granted from May 1, 1883, to May 1, 1884	1,822
Number of street-railway licenses cancelled and surrendered	1,146
Number of street-railway licenses renewed	8
Total amount of fees	\$455 50
Private detective licenses granted	5
Amount of fees	\$50 00

PENSIONS.

During the year five pensioners have died, ten have been placed on the pension-list, making the total number of pensioners, including Enos Wasgatt, who receives \$3 per day,

and Samuel B. Ross, who receives \$1.50 per day, by special votes of the City Council, sixty-eight, necessitating an annual expenditure of \$26,032.50. The Board, as to pensions, have followed out the principles laid down in previous reports, and pensioned officers only in cases where there have been long and meritorious services, or where the person pensioned has been disabled by extraordinary causes out of the common line of his duty. It will be seen that the amount paid for pensions increases, and there now being no relief fund from which any of it can be drawn, it must be paid out of the general appropriation each year.

The pension-roll now stands as follows : —

SALE OF INTOXICATING LIQUORS.

The number of licenses granted between May 1, 1883, and May 1, 1884, is as follows: —

Amount paid by the City of Boston to the State of Massachusetts, as by statute provided, for the year 1883-84	\$75,592 00

It will be seen by examination that while the income from licenses has increased over the previous year \$25,738, the expenses on account of the enforcement of the license law have been reduced \$410.12; showing a net increase over the previous year, from licenses, of \$26,148.06.

The screen law has been thoroughly enforced during the past year, and the Board caused to be closed permanently all entrances to the licensed premises other than those from the public streets, when practical.

The changes in the fees for licenses can be seen by consulting the subjoined comparative table:—

For licenses of the 1st class, to sell all kinds of intoxicating liquors, to be drunk on the premises:—

	1883-4.	1884-5.
Innholders—divided into two classes, \$300 00	{	\$600 00 A

C. Brewers, upwards of 60,000 barrels per annum	400 00	450 00
For licenses of the 6th class, to druggists	1 00	1 00

Licenses cannot be transferred during the year from one person to another.

There are several changes which could be made in the "Liquor Laws," so called, which would simplify matters and render them more effective. The utterly useless routine of compelling the Mayor to sign all the licenses issued by the Board, and which it is believed was the result of an oversight in those who drew up the law and ordinance establishing the Police Commission of Boston, should be abolished, as heretofore recommended, and the licenses should be signed by those granting them.

¹ Only to be issued in conjunction with a first-class victualler license.

One of the principal difficulties with which the Board has to contend is in the mode in which licenses are granted.

The Board renew the recommendation of last year, that, the license to sell intoxicating liquors should not depend either upon an innholder or a common-victualler license, but should be independent of each, and only combined when the exigency demands such combination.

Each license should be issued on its merits. The laws regulating the sale of liquor, and the hours in which the traffic could be carried on, might then be absolutely controlled; but when combined as above, it is extremely difficult.

POLICE HEAD-QUARTERS.

During the year portions of the premises known as 6 and 7 Pemberton square, which were leased by the city, were remodelled under the supervision of the Committee on Public Buildings, and on December 15, 1883, that portion of the department occupying quarters in City Hall moved into the new head-quarters. The Board are of the opinion that the change has been beneficial to the service, as it brought the different bureaux into closer relationship, thereby greatly facilitating the work allotted to each. The Superintendent's office is open day and night. Two sergeants and two patrolmen have been detailed for night-service, and through them all branches of the department are in constant and uninterrupted communication.

STATION-HOUSES.

The several station-houses, with the exception of those in Divisions 1 and 5, are in good condition. The alterations proposed to be made in the latter will, when completed, in our judgment, furnish all the accommodation and convenience needed by the officers and men. The house used by Division 1 is very poorly ventilated, besides being, on account of defects in construction, wholly inadequate to accommodate the large number of prisoners detained therein during the year. The Board would again recommend the abandonment and sale of this house, and the erection of a new building, with modern conveniences, off the main thoroughfare, and believe that a sufficient sum could be realized from the sale to meet the expenses to be incurred.

The new station-house to be erected this year on the corner of Boylston and Hereford streets will, when completed, necessitate an increase in the Police force, as the officers now doing duty on the portions of Divisions 3, 4, 5,

and 10 which will be set apart will be required at their respective houses. The new Division will include the Back Bay Park and a portion of the extension of Commonwealth avenue, besides a large area of very valuable and thickly settled territory. The Board would respectfully recommend the utmost expedition in the erection of the building consistent with the public convenience.

FIRE-ARMS.

It is generally understood by the public that every police-officer carries a revolver while on duty. The custom has been, and is now, for the men to purchase these weapons out of their own private means. As a result of this exercise of individual taste, every variety and calibre manufactured is to be found in their possession. Should it ever become necessary to use such weapons, their inefficiency would be at once established, as the ammunition adapted to one man's revolver would be unsuited to that of his neighbor, and, as a consequence, when a piece was once emptied of its charge, it would become absolutely useless.

The Board would respectfully suggest to the Honorable City Council the propriety of furnishing the department with a uniform revolver which would remain the property of the city.

THE STEAM LAUNCH "PATROL."

By vote of the City Council the sum of \$3,000 was appropriated last year for the construction and equipment of a steam-launch, for patrol duty in the upper harbor. The Board advertised for sealed proposals in due form and received several from competent and responsible engineers and builders. On January 4, 1884, the contract was awarded to the Osborn Engine and Manufacturing Company, of East Boston, they being the lowest bidders. The contract provided that the hull and machinery should be constructed according to plans and specifications prepared under the direction of the Board, for the sum of \$2,325. Owing to delays caused by needed alterations in the plans, as the work progressed, the launch was not ready for service within the specified time, but before this report reaches the Honorable City Council she will be in commission and doing effective work along the extensive water-front, which it is the duty of the Department to carefully guard. By vote of the Board the boat has been named "The Patrol." She will be one of the best and swiftest launches of her measurement in our waters.

We again call your attention to the telephone and signal telegraph system now in use in several cities. So far as we are able to judge from personal observation, together with reports from the cities which have adopted it, we are of the opinion that, if introduced, it would be one of the most powerful aids to the department that has yet been devised.

AMBULANCES.

There are three ambulances now in active use in the department, one located in Division 4, one in Division 1, and one in Division 7, East Boston. The last-mentioned was located there in February, 1884. During the year the ambulances were called into service 575 times.

EXAMINATIONS FOR PROMOTION.

The system of competitive examinations for promotion introduced by the Board last year has produced the most satisfactory results. Thirteen patrolmen were advanced to the rank of sergeant, and nine sergeants to the rank of lieutenant, after a rigid and most impartial test of the applicants' knowledge of police duty and of the statutes and ordinances relating to the work and management of the department, and every officer so advanced has proven by his conduct in his new sphere of duty that he was deserving of the distinction conferred on him. The fact that promotions have been made fairly, and according to the merits of the competitors, has come to be generally admitted by members of the department, and has given a fresh impetus to the study and friendly rivalry in effective police work, which go far to improve and keep up the efficiency and discipline of the force.

In conclusion, the Board desire to express their satisfaction at the present condition of the force, and are of the opinion that it will compare favorably with the police department of any city in the country. During the past year the officers and men have cheerfully performed their duty, and, in our opinion, the department is entitled to the respect and confidence of the public.

THOMAS L. JENKS,
MICHAEL P. CURRAN,
Police Commissioners.
